Lenington Gardens

- THE BEST IN HEMEROCALLIS -

7007 Palmer Road
Kansas City, Missouri

INTRODUCTORY

We wish to take this opportunity to thank our customers for their patronage and for their many kind comments. We are especially grateful for the helpful suggestions which enable LENINGTON GARDENS to broaden its service and enlarge its following of satisfied customers the foundation on which our business has been built.

Two extremely dry years following one of record breaking rainfall, have given Midwestern gardeners the opportunity to prove, by actual experience, that Hemerocallis (daylilies) can withstand the extremes of rainfall and drought. Excepting under conditions of dense shade and boggy soil, it can be said that Hemerocallis will grow anywhere.

Because of their adaptability to almost any location, the Daylily's uses are wide and varied. They are widely used as specimen or companion plants and for naturalizing purposes. They may also be used for retention of soil on terraces, as a living mulch around small or open foliated trees, or as an edging along drives, fences, or garden areas.

We believe our location here in the Heart of the Midwest, with its extremes of weather, enable us to offer plants that have been tempered and seasoned sturdy and vigorous plants that will perform well in any part of the country. Should you not find a variety listed in which you are interested, please write. We are growing more than 400 additional varieties, which are not listed because of limited stock.

When you think of HEMEROCALLIS . . .
. . . THINK of LENINGTON GARDENS

Bob and Alice

Lenington Gardens

READ BEFORE ORDERING

TIME TO PLANT: Daylilies may be planted anytime during the spring, summer or fall. However, it is recommended that planting be done in the Spring, or in the Fall far enough in advance of cold weather to allow the plants to establish themselves.

SOIL REQUIREMENTS They will thrive in almost any garden soil, provided the soil is not poorly drained or too heavily shaded. Complete planting instructions will be sent with each order.

FIRST YEAR RESULTS: No variety should be judged by its performance the first year. Only after a daylily becomes established usually by the second or third year will it produce characteristic bloom.

SHIPMENTS: Unless otherwise specified by the customer, shipping will be done on the date deemed best for his locality. All orders are subject to prior sales and will be shipped when weather permits.

GUARANTEE: All plants sold by Lenington Gardens are guaranteed to be true to name, healthy, vigorous and to reach you in good condition. Any **reasonable** claim will be rectified promptly, but in no case will Lenington Gardens be liable for an amount greater than the purchase price. Because of the varying gardening skills and conditions, over which we exercise no control, we cannot make any guarantee beyond that listed above. We are, however, interested in the performance of our customers' plants and always welcome reports on them.

COMPLIMENTS: Each variety is accompanied with a Lincoln Plastic Plant Marker of the Full 12" Type, bearing the name of the variety.

TERMS: Cash with order. Payments should be made by check or postal money order. Currency sent through the mails, must be done so at the risk of the customer. Missouri customers must add 2% for Missouri Sales Tax.

POSTAGE: All orders over \$5.00 are sent post-paid. Please add 50c for orders under \$5.00. If Special Handling is desired, add 20c extra.

We recommend:

DAYLILIES AND HOW TO GROW THEM

by Ben Arthur Davis

We recommend without reservation this new book on Daylilies. It is a complete and informative story on Daylilies, written for the home gardener. The book covers all phases of culture and propagation, and includes five regional chapters written by leading authorities. A valuable addition to your library.

LENINGTON GARDENS

Lenington Gardens

FOR THE FIRST TIME

We are proud to introduce, for the first time, varieties produced by George E. Lenington. Grown under number, the following were much admired by garden visitors and are worthy of a place in your garden.

BONNER CHARM (L15-1) — A low growing, light Empire yellow self with wide, crinkled, slightly recurving petals. Sepals also, recurve slightly. The 5 inch crepe-like full flowers are borne on 24 inch erect scapes, which make it ideal for the front of the border. Blooms over a long period. June-July. SE.....**\$5.00 Net**

GYPSY ROBE (L94-9) — Ruffled, slightly recurving, golden buff petals with a rich orange veining and a wide, light midrib which is very prominent after a day in the hot sun. The large greenish-yellow throat is topped with a coral-red eye-zone which appears only on the petals. The lower third of the stamens are the same shade of green as the throat. The flower is just as fresh looking in the evening as it was in the morning and has a lot of sheen at all times. Very well branched. 32 in. June-July-Aug. SE.....**\$5.00 Net**

LADY BONN (L05-21) — Light canary yellow flowers, that glisten as though they had been sprinkled with diamond dust. The blooms are more than 6 inches in diameter and are carried gracefully on 38 in. scapes. Flowers remain open until late at night. June-July. E.....**\$5.00 Net**

Lenington Gardens

GENERAL LIST

Daylilies will supply a maximum of beauty for a minimum of care, but will repay the gardener for any extra attention given them. Daylilies are long-lived plants and should be placed at least two feet apart when planting. They will spread and fill the gaps but will not become overcrowded for many years. For the maximum number of plants in a given area, as in formal or display beds, stagger the plants. In describing the flowers the following symbols are used:

E . . . Evergreen SE . . . Semi-evergreen D . . . Dormant

- ADAGIO (Russell)** — Small brilliant red flowers with a darker eye-zone and small yellow throat. 28 in. June D... **\$1.00**
- ALASKA (Merry)** — Very pale yellow flowers. Lots of bloom. A good garden plant. 40 in. July..... **\$1.00**
- ALBERT GORHAM (Norton)** — Recurving red bitone. A good lily for back of border because of height. 60 in. June - July **\$2.00**
- ALMIE (McClure)** — Large red with bronze overlay. Darker eye-zone. 40 in. June-July..... **\$1.50**
- ALNILAM (Saxton)** — Small, garnet and orange bicolor. 30 in. June E **\$2.50**
- APRICOT QUEEN (Sass)** — Recurving apricot self with green throat. Free bloomer. 40 in. July-Aug..... **\$2.50**
- ARTEMIS (Norton)** — Large pale yellow flowers with large full petals and pinched sepals. July-Aug. 40 in..... **\$2.00**
- AUGUSTA (Bechtold)** — Chrome yellow flowers. Fragrant. 40 in. July-Aug. D **\$.75**
- AUGUST ORANGE (Stout)** — Rich glowing golden flowers. Good evenings. 36 in. July-Aug. SE **\$.50**
- AUGUST PIONEER (Stout)** — Chrome gold, flushed red on outer half of petals. 34 in. Aug.-Sept. D **\$.50**
- AUTUMN DAFFODIL (Kraus)** — Late, small, deep yellow. Abundant bloomer. 32 in. July-Aug. D **\$2.00**
- AUTUMN PRINCE (Stout)** — Small, clear yellow blooms on much branched stems. Lots of blooms and very late. 42 in. Aug. D **\$1.50**
- AUTUMN RED (Nesmith)** — Open, flaming velvety red. 38 in. June-July D **\$1.00**
- BABY TEARS (Russell)** — Petals deeply marked with rosy-red over gold background. 36 in. June-July E **\$.50**
- BAGDAD (Stout)** — Brown and reddish tones, with clear orange throat. 40 in. June-July. D **\$.50**
- BAGGETTE (Russell)** — A delicate bicolor. Sepals, throat and inner half of petals chrome yellow, outer half of petals lilac-rose. 30 in. July-Aug. D **\$1.00**
- BARBERRY RED (Coughlin)** — Dark, ruby red. Has tendency to produce more than the usual number of segments. 38 in. July **\$.75**
- BARONET (Stout)** — Crinkled crimson-orange flowers. Blooms early in June and repeats in the fall. 30 in. E **\$.50**
- BERNICE RUSSELL (Russell)** — Rosy cinnamon-yellow. Large showy flower. 32 in. July E **\$1.50**
- BETTY SLICK (Russell)** — A large bicolor. Petals rosy-red, sepals yellow. 38 in. July SE **\$1.00**
- BICOLOR (Stout)** — Petals rosy-red, sepals yellow. Good evenings. 38 in. June-July. SE **\$.75**
- BILLIE BURKE (Wheeler)** — Petals deep rose with brownish overcast; sepals yellow with a slight overcast of petal color. Opens evenings and holds perfect thru next day. 40 in. June-July **\$1.00**

Lenington Gardens

- BIJOU (Stout)** — Orange overcast with rich fulvous red. 24 in. June-July. D \$.50
- BLACK CHERRY (Douglas)** — A rich lustrous black-red that will withstand hottest sun. 36 in. June-July D \$1.00
- BLACK EMPEROR (Russell)** — Large dark red with deep yellow throat. 48 in. June-July. D \$.75
- BLACK HILLS (Russell)** — Black-red, good bloomer. 28 in. June D \$.75
- BLACK PRINCE (Russell)** — Black-red with golden throat. Very attractive. 40 in. June-July D \$1.00
- BOLD COURTIER (Nesmith)** — Broad rose petals with creamy midline. Recurved yellow sepals slightly flushed with rose. 38 in. July D \$1.00
- BOUNTIFUL (Cook)** — Large wide petaled lemon-yellow. Very effective. 30 in. July D \$1.00
- BOUTONNIERE (Stout)** — Miniature flowers, sepals clear yellow, petals rosy peach. 36 in. July-Aug. D \$.50
